

Features and Characteristics

Alumilite designs reliable products produced with the best available materials, and we stand behind them with superior customer service. Please contact us for more information.

Housing: Four heavy gauge extruded aluminum sections interlock to form the cylinder. LED module support brackets with 1/4" threaded studs are internally welded to the housing. Cast frame with pendant bracket welded to frame is threaded for 1/2" pendant.

Lens Assembly: Clear tempered glass lens is sealed in the upper cast aluminum frame. Bottom is open with regressed cast frame secured to the housing with single flush stainless steel fastener. A safety cable secures the frame.

Optical System: Spun aluminum reflectors with semi-specular finish provide a smooth symmetrical distribution.

Pendant Assembly: 3/4" aluminum pendant is secured to cast yoke, which is welded to housing. It is provided with a swivel canopy and universal bracket for mounting to J-Box. Pendant length must be specified when ordering.

Module/Drivers: Cree LED modules are incased in a cast aluminum housing and sealed with diffused lens. They provide industry-leading efficacy (steady state) of up to 97 lm/W for 20w/2000lm and 30w/3000lm, 108 lm/W for 40w/4000lm and 85 lm/W for 70w/6000lm. Modules are available in 3000, 3500 and 4000k and have a minimum CRI of 90. Drivers are 0-10v dimming with universal voltage. Optional with an emergency driver "EMD" for 20, 30 and 40 watt modules.

Finish: Polyester powder coating on all metal parts.

Listing: Luminaire is ETL listed for dry locations..

Specifications

Series	Wattage/Lamp	Volts	Pendant
YRP-2	20w/LED = 1220/LED	UV	12"
YRP-2	30w/LED = 1230/LED	UV	24"
YRP-2	40w/LED = 1240/LED	UV	30"
YRP-2	70w/LED = 1270/LED	UV	36"
			Other

Options	Finish
3000k = 30k	BZ = Bronze
3500k = 35k	BK = Black
4000k = 40k	WH = White
PG = Prismatic Glass	SL = Silver
OB = Open Bottom	CC = Custom Color
EMD = Emergency Driver
